2. Traditional cord closure with three tie string loops
3. Complete range of full and half sizes - "split" uniforms, and separates.
4. Pants and jacket cuff reinforced with tape and six lines of extra stitching. All seams vamped and double sewn.
5. Hand-finished collar with multi-needle stitching.
6. Shoulder area lined with soft cotton gauze for added comfort.
7. Revolutionary jacket design with underarm gussets for improved freedom of movement and five embroidered air holes each side for coolness.
8. Extra-long woven cotton tie string.
9. Waist band lined with soft cotton gauze to prevent "bunching".
10. Custom embroidery service. Name or style translated into Japanese and embroidered free on new uniforms.

### How to Wash a Meijin Uniform

These suggestions are based on trials we conducted as well as the experience gained by owning hundreds of uniforms over the past 25+ years.

- Give it room! A wet keikogi weighs a lot so don't overfill your washing machine by trying to wash more than one at a time. In an overloaded washing machine the cotton canvas can become jammed under the impeller and torn.
- Keep it clean! Sweat, dirt, and grit will damage your uniform. Washing it frequently in cool water and hanging it to dry will make it better to wear and much longer lasting.
